Ford Territory – Replacement Towbar/Wheel Carrier

Another first from Kaymar!

This is the first rear spare wheel carrier system for the Ford Territory SUV family of vehicles.

At last an answer to the need for 'out of cabin' spare wheel storage for the thousands of Territory owners undertaking LPG conversions where the factory spare wheel mount is removed for placement of the LPG tank.

Designed and constructed specifically for the current model Territory this product is up to the same high quality and performance standards as Kaymar's renown off-road products and features all steel construction with anti-rust zinc plating and black powder coated finish, 'over centre' carrier locking system with anti vibration control, stainless steel gas strut carrier arm holdback, LED signal lights, integral towbar with 2300Kg

The perfect way to mount your spare with LPG conversion

The carrier opens wide to give plenty of rear door clearance

towing capacity and 230Kg ball loading, clearance for factory fitted reversing sensors and **bonus vinyl wheel cover.**

Part

K3380

RRP \$1450.00

Replacement towbar/wheel carrier
