PRESS RELEASE – Kaymar 4x4 Accessories

Prado 120 Wheel on Door Bracket & Spacer (Part #K7120)

This new accessory from Kaymar enables greater choice of tyre width for spare wheel mounted on the rear door. Adding an extra clearance of 25mm at the hub wide tyres are kept well clear of the vehicle's paint work. Manufactured from solid steel plate and finished with a bright, rust preventative electroplated coating it is an investment to last the life of the vehicle.

Also included with the bracket is an integral mounting for the Kaymar Telescopic Work Light (Part #K50500) too!

An optional HF/UHF aerial mount (Part #K7121) is available for attachment to the bracket.

Mounting the bracket is quite straight forward as it simply locates on the door in place of the factory fitted spare wheel carrier which in turn fits to the bracket.

Pricing for these Australian made products is extremely reasonable:-

K7120 Wheel on Door Bracket with Telescopic work Light Bracket	\$122.00 inc GST
K7121 HF/UHF Aerial mount	\$79.00 inc GST
K0500 Telescopic Work light	\$ 260.00 inc GST
